

STEM with SteAm in Elmhurst!

Sunday, January 28

Jefferson School
360 E Crescent Ave.
Elmhurst

Powders, Potions, and Polymers:
Concoct creative scientific solutions, cause weird chemical reactions, and create slippery substances. Explore the fascinating world of chemistry!
(K-6)

Sunday, February 25

Hawthorne School
145 Arthur St.
Elmhurst

Lego WeDo and More!
Build robots such as monkeys, alligators, and birds. Work from our building plans or create your own robots. Program actions and sounds. The possibilities are endless!
(\$5 lab fee; K-3)

Engineer a Hopper or Racer:
Explore energy, forces, and motion while learning basic circuitry! Apply principles of physics and engineering to design and construct motorized kinetic contraptions. Select either a hopping creature or a three-wheeled racer. Bring your creation home for further investigation.
(\$5 lab fee; 3-6)

Sunday, March 18

Lincoln School
565 Fairfield Ave.
Elmhurst

Create a LEGO Movie!
Using a digital camera, movie software, and Lego robots, create a stop-action movie. Experiment with special effects, sound, and titles. Share your movie with family and friends! (\$5 lab fee; 1-3)

DNA: Blueprint for Life! Explore how DNA forms a blueprint for life. Discover the intricacies of the double helix and create a model. Extract real DNA from a strawberry!
(\$5 lab fee; 3-6)
