

This is the second year of our two-year Fund-a-Cause campaign to rebuild the school playground. Thanks to your generous donations at last year's Gala, we were able to install: two new basketball hoops, freshen up the swing set area with new borders and mulch as well as add some four-square courts to the parking lot.

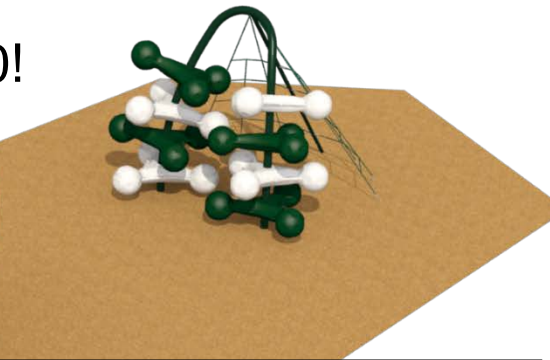

This year our goal is to replace the old structure on the other side of the playground. We will also replace the borders and mulch around this new structure and hopefully expand the area to fit even more gear for the kids to play.

We are inviting families to help make this exciting project a reality by donating to the Playground Fund-A-Cause. If you can't be with us at the Gala on February 24th or you have family you would like to invite to contribute to this worthy cause, you can visit <https://is.gd/SISPLAY> and donate today!

Our fundraising goal is \$20,000!

The Kids have spoken!
They need more room to play. With your help we can give them that room with the structure below. It can safely allow twice as many kids as our current structure.

Fundraising Challenge!
If we can raise an additional \$7,000 (bringing our total to \$27,000) we will be able to expand the playground and add the extra climbing structure pictured above! This will expand the capacity to 90 kids!

Manufactured by Miracle Recreation and designed by Team REIL to fit on our existing playground, this structure will be built by a team of SIS volunteers under the supervision of a certified playground specialist.
